

## Safe Count

The Safe Count module replaces and enhances manual safe count processes with a straightforward, easy to use online tool.

## What?

### What is the Safe Count module?

- A highly configurable, web-based safe count module that replaces the traditional and manual safe count process, creating a cash and valuables inventory tool
- Provides a fast and easy way for locations to log safe counts
- Tracks and details every safe count performed, ensuring visibility and oversight
- Analyzes safe count activity using real-time, intelligent reports

## How?

### How does it work?

- Headquarters establishes rules: user access, categories, thresholds, target operating funds and much more
- Users create online safe counts
- System automatically records and tracks every detail of each safe count
- Headquarters tracks, manages and analyzes safe count activities at all locations

Search Safe Counts

Search  From 2/1/2016 To 2/19/2016

Enter a location #. You can also enter keywords. [Show Key](#) OR [Show Keywords](#) OR [Show Examples](#)
